What is an Emergency?

An emergency is an unexpected situation that involves prompt action. Or, an incident that threatens the health and safety of people.
When are the team activated?

- Impact on Students
- Impact on Facilities
- Impact on University Resources
Why create response teams

• University police likely to be involved in most emergency situations, but some situations require cooperation and collaboration with other units.

• There is much more do to in addition to a law enforcement response.

• Care for UB Students – support for friends and family.

• Communication – UB and Community

Teams do not provide medical or law enforcement functions.
